Job Title

Sales Application Engineer (Mechanical Engineer)

Job Description

Specialloy Industries (2012) Inc. operating as Slot Drain Systems, requires a Mechanical Engineer based at our head office at 1061 Notre Dame Avenue in Winnipeg, Manitoba, R3E 0N4, to join our revenue team.

We are looking for a customer-driven, sales-oriented Mechanical Engineer who has a vested interest in making an impact in our family-owned organization.

You must have strong product design, verbal and written communication skills and enjoy being part of a team environment to grow the business (and be rewarded for it).

Main Job Duties Include:

- Design engineering based surface drainage systems for major commercial projects
- Preparation of Installation engineering drawings and providing technical installation advice to end customers
- Conduct technical presentations to consultants, engineers, architects and clients
- Provide technical engineering related support service to sales team and customers
- Preparation of Bills of Materials (BOMs) and Work Order Routers
- Study construction drawings from Consultants/Architects and identify the application areas using engineering principles of drainage product
- Coordinate with the manufacturing team for custom products
- Preparation of engineering drawings for standard and customized products as per engineering requirements
- Participate in Research & Development of new products and adopting standards
- Conduct technical training to internal team as necessary

Candidate Requirements:

- Minimum 5 Years Experience in Pre-fabricated Drainage Design
- Bachelor of Engineering Degree specializing in Mechanical Engineering
- Proficiency in Autodesk products - Autocad/Inventor
- Design and drafting ability
- Excellent communication skills
- Manufacturing / Fabrication Design Experience
- Positive and Professional attitude

Job Type: Permanent / Full-time

Wage: \$37.42 / hour

Benefits: Health and Dental Benefits
